

Name: _____

Social Studies Map Activity

Directions:

1. Color the 7 continents.
2. Make a map key that tells the color of each continent.
3. Find where Georgia is located in North America and label it.
4. Number the location of each of the 5 oceans.
5. Make a map key that shows which ocean each number represents.
6. Color the Equator red.
7. Find 60 degrees north and 80 degrees north. 70 would be halfway between them. The Arctic circle is at 66 degrees north. Find it. Use a straight edge to draw it. Then label it.

Continents:

1. North America
2. South America
3. Europe
4. Asia
5. Africa
6. Australia
7. Antarctica

Oceans:

1. Atlantic
2. Pacific
3. Arctic
4. Indian
5. Southern

Answer the following:

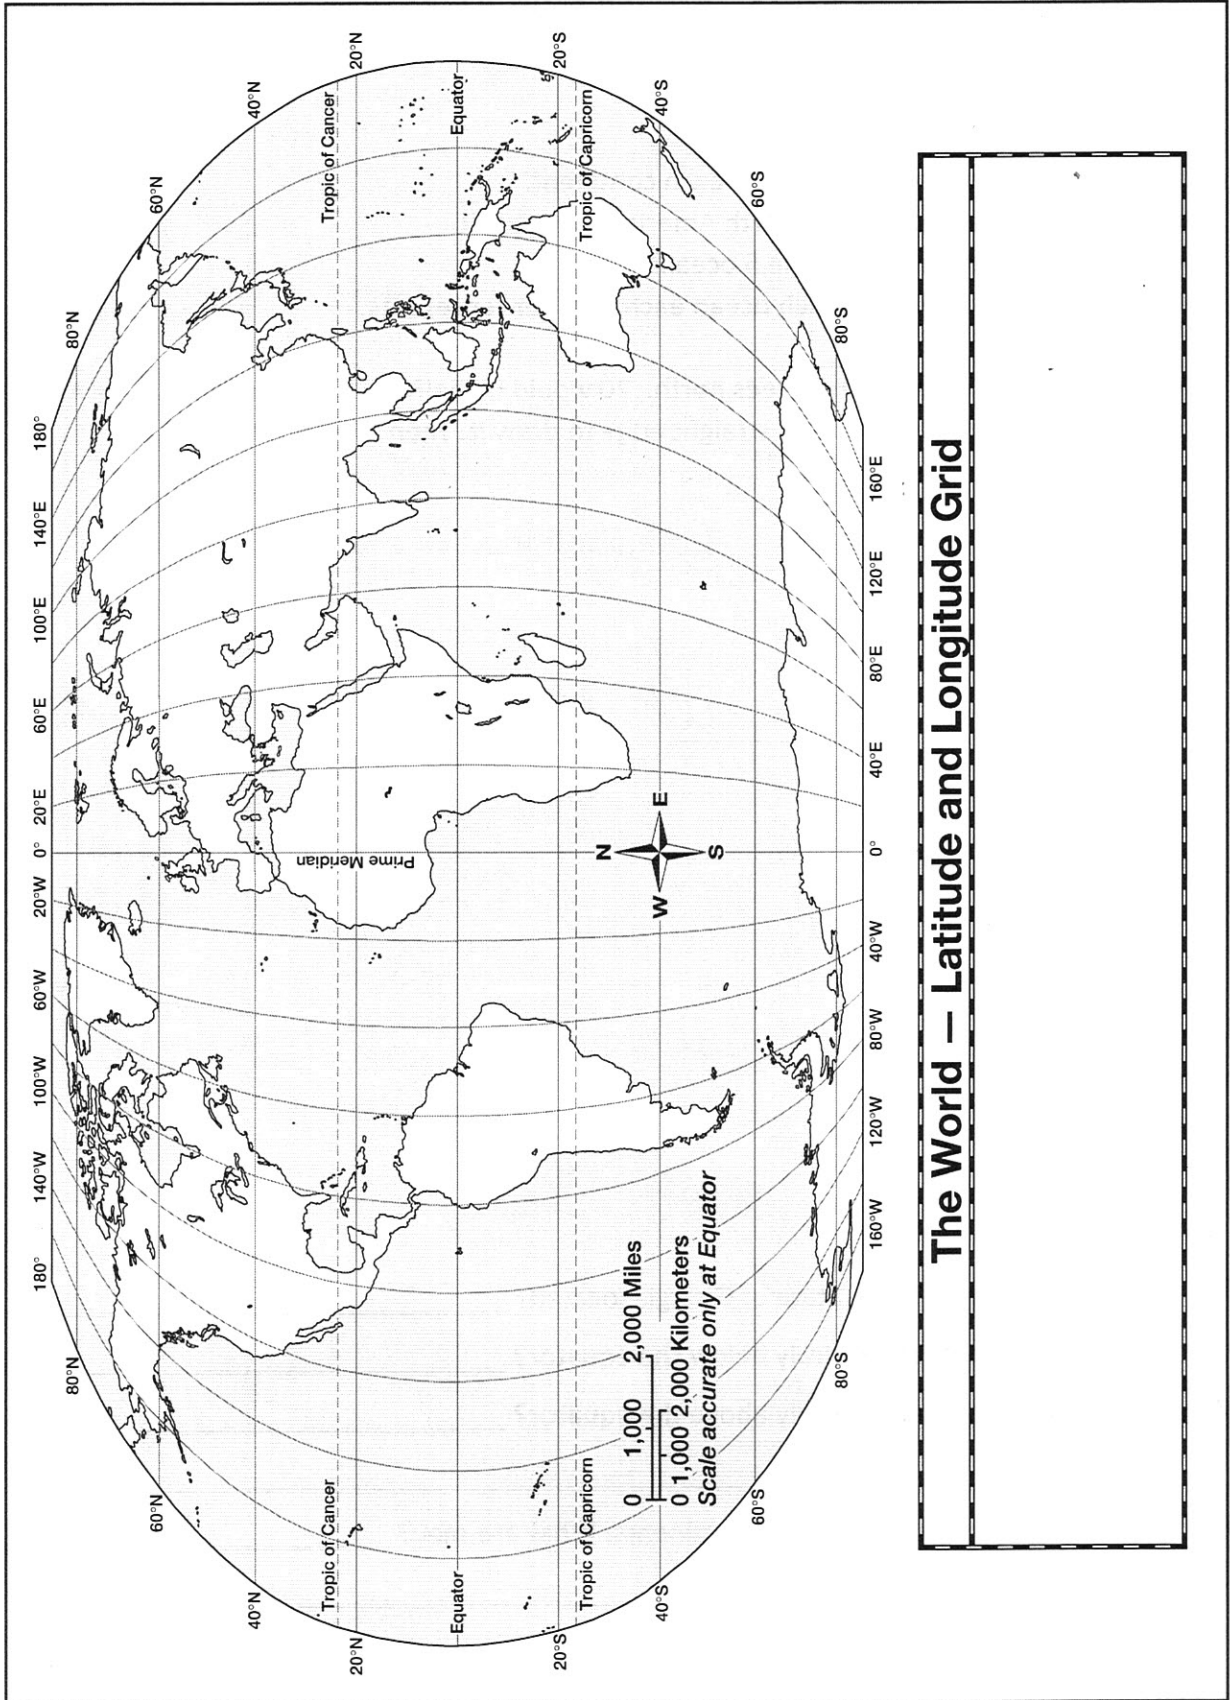

1. On which continent is the State of Georgia located? _____
2. Which 2 continents are entirely below the equator? _____
3. Which 3 continents are entirely above the equator? _____

4. The equator runs right through 2 continents. What are they? _____
5. Which continent is just south of Europe? _____
6. Which continent is east of Europe? _____
7. Which continent is south of Africa? _____
